| Fiona Stanley Hospital | WA | | 1 | Dr Eric Slimani |

* Duration for a Thoracic post is one (1) year.

Please note: Once a Hospital Post is allocated a training post duration, it cannot be altered until the next scheduled inspection. Should the Hospital wish to increase/reduce the Training Post duration, the Surgical Supervisor must formally write to the Board specifying the reasons and providing appropriate evidence. A formal response will then be provided once a decision is made.
