Division:	Research, Audit and Academic Surgery	Ref. No.	REA-RES-019
Department:	Research and Scholarships		
Title:	Raelene Boyle Research Scholarship (Sporting Chance Cancer Foundation)		

1. PURPOSE AND SCOPE

This policy governs the awarding of the Raelene Boyle Research Scholarship. It covers the application and selection criteria as well as the duration, value, frequency and conditions of the Scholarship.

2. KEYWORDS

Raelene, Boyle, Scholarship, Sporting, Chance, Cancer, Foundation, Research

3. BODY OF POLICY

3.1. Background

Launched in 1997, the Sporting Chance Cancer Foundation established the Raelene Boyle Research Scholarship in honour of Raelene Boyle, an Australian national treasure and champion athlete. The scholarship is intended to support trainees or Fellows undertaking research in a cancer related field.

3.2. Eligibility Criteria

Applications for the Scholarship are open to Fellows and surgical Trainees enrolled in, or intending to enrol in, a higher degree.

Applicants to surgical training are also eligible to apply for a scholarship in anticipation of their acceptance into the SET Program. They must be accepted into the SET Program by 1 August in the year prior to the commencement of the scholarship in order to take up the award. The scholarship research project must be on a cancer related topic.

All scholarships, fellowships and grants are conditional upon the applicant being a permanent resident or citizen of Australia or New Zealand, or an international medical graduate accepted into the College as a Trainee.

Applicants are eligible for a maximum of four years of RACS Research scholarship funding. This can be made up of multiple College research scholarships and does not have to be taken consecutively.

3.3. Selection Criteria

The scholarship recipient will be chosen on the basis of his/her written application, Curriculum Vitae, supporting references and subsequent interview, if applicable.

Research scholarship applicants will be short-listed for interview based upon the candidate's academic record, postgraduate training, research experience, publication history, the experience of the supervisor and reputation of the institution where the research is to be undertaken. These criteria will be assessed from information provided in the application, supporting references and accompanying Curriculum Vitae.

Short-listed applicants will be interviewed by a panel comprised of the Chair of the Board of Surgical Research and two other Board members. Assessment will be based upon the candidate's understanding of the research project as evidenced by their explanation of the project and ability to address questions from the panel. The candidate will also be assessed on their initiative in attempting to source other funding.

3.4. Value of the Scholarship

Prospective applicants should refer to the College website <u>www.surgeons.org</u> for information on the current value of the Fellowship.

3.5. Duration of the Scholarship

The scholarship is of 12 months duration.

3.6. Frequency of the Scholarship

The scholarship is to be awarded annually, subject to availability of funding and providing there is a worthy applicant.

3.7. Conditions of the Scholarship

3.7.1. Research Program

The following conditions are based on information supplied at the point of application on which scholars' applications were assessed and approved. Any changes from those originally approved by the College will require the College's prior consent. To obtain this consent, scholars are required to complete an amendment form available from the College.

- a) Scholars must be enrolled in the higher degree as approved by the College for the duration of their award.
- b) Scholars must undertake the research study as approved by the College for the award.
- c) The completion of Referee Form Two, Section A of the Application Form by the proposed supervisor is considered certification that he/she is willing to accept the role of supervisor of the named research study.
- d) Preference will be given to scholars who will undertake the research study at an approved institute in Australia or New Zealand. However, consideration will be given to scholars who wish to undertake all or a proportion of their research in an overseas institution. In these cases scholars must submit a strong justification in their application and supply the names of two supervisors. One intended supervisor of their research must be situated in an approved institute in Australia or New Zealand. Written approval from the intended Head of Department where the research is planned to be conducted overseas is also required.

3.7.2. Financial Arrangements

In Australia and New Zealand scholars may engage in professional work for additional remuneration for up to an average of 10% of each working week, provided that:

- a) The work carried out under this entitlement is related to the broad area of his/her research activities;
- b) The additional work is undertaken with the permission of the scholar's supervisor and employing institution. Clinical sessional work, teaching and consulting are all categories of work for which permission could be sought;

The scholar has the right to access his or her personal information and to have it corrected if inaccurate, incomplete or out of date.

3.7.12. Termination of the Scholarship

The College may, at its discretion, for what is considered grave cause, suspend the tenure of an award for such time as is thought fit, or deprive a scholar of his/her Award. From the date of either of these decisions, the entitlement to stipend and other allowances shall cease.

3.7.13. Acceptance of Offer

The scholar, their Head of Department and a representative of the Administering Institution must sign the Acceptance Form as acknowledgement of the above conditions and approved research and return it to the College prior to commencement of the award.

3.8. Access to policy

This policy may be accessed by the general public, College and staff.

3.9. Communication

Scholarship recipients will be notified of the policy or any changes to the policy that impact them by email. Other stakeholders are encouraged to check the College website on a regular basis to keep up to date with policy changes.

3.10. Administering Committee

The Fellowship is administered by the Board of Surgical Research.
