

Important

- 1. Please do not destroy this form
- 2. Please do not copy this form
- 3. Please return this form to the audit office

By submitting this form to the Mortality Audit, I agree that Australian and New Zealand Audit of Surgical Mortality (ANZASM) may inform the Professional Standards Department of my involvement with the surgical mortality audit, to confirm my compliance with Continuing Professional Development (CPD) requirements.

ANZASM inclusion criteria:

ANZASM defines a surgeon as a medical practitioner who performs surgical operations; that is, consultants, SET trainees, locums, GP surgeons and Fellows (who are not consultants but are continuing their Fellowship).

Case Inclusion

The ANZASM audits all deaths that occur in a hospital where:

- 1) The patient was under the care of a surgeon (surgical admission), whether or not an operation was performed, or
- 2) The patient was under the care of a physician (medical and non-surgical admissions) and there was a surgical procedure performed.

Participation in ANZASM is protected by Qualified Privilege as a declared Quality Assurance Activity according to part VC of the Health Insurance Act 1973 (Cth).

Exclusion for terminal patients:

Please complete this section for all patients

Was terminal care planned for this patient prior to or on admission?

If **YES** please describe the terminal condition:

YES

(go to page 2 and complete ALL questions on this form)

NO

If YES, was an operation performed on this terminal care patient?

YES - go to page 2 and complete ALL questions on this form

NO (this patient is **EXCLUDED** from the audit; do NOT complete this form)

Return this form to the Audit Office.

All identifiers will be removed by the Audit Office on receipt of this completed form:

	Patient name
NODID	6 9 9 9
Sex	UMRN
DOB	Hospital
Admission Date	Consultant surgeon
Date of Death	Surgeon
Specialty	Name of any Surgeon(s)/Trainee(s) to whom individual feedback
Hospital ID	should be sent

	Was the infective organism identified? Ye	es No	(go to Q2	2)				
	If YES , what was the organism?							
	Was there a delay in treatment of the infec	tion? Yes	No					
22	Was the antibiotic regimen appropriate? Ye	es No	Not app	licable l	Jnknown			

24b

23 If an operation occurred, do you consider **management** could have been **improved** in the following areas?

Preoperative management/ preparation	Yes	No	N/A	Intraoperative/technical management of surgery	Yes	No	N/A
Decision to operate at all	Yes	No	N/A	Grade/experience of surgeon deciding	Yes	No	N/A
Choice of operation	Yes	No	N/A	Grade/experience of surgeon operating	Yes	No	N/A
Timing of operation <i>(too late, too soon, wrong time of day)</i>	Yes	No	N/A	Postoperative care	Yes	No	N/A
Appropriate equipment available?	Yes	No	N/A				

24a An area for **CONSIDERATION** is where the clinician believes areas of care COULD have been IMPROVED or DIFFERENT, but recognises that it may be an area of debate.

An area of **CONCERN** is where the clinician believes that areas of care SHOULD have been better. An **ADVERSE EVENT** is an unintended injury caused by medical management rather than by disease process, which is sufficiently

serious to lead to prolonged hospitalisation or to temporary or permanent impairment or disability of the patient at the time of discharge, or which contributes to or causes death.

Were there any issues in the management of this patient? Yes (please describe below) No (go to Q25)

Important: please describe the 3 most significant clinical management issues. i). (please describe the most significant clinical management issue)

Area of:	Which:	Was the event preventable?	Associated with?
Consideration	Made no difference to outcome	Definitely	Audited Surgical team
Concern	May have contributed to death	Probably	Another Clinical team
Adverse event	Caused death of patient who would otherwise be expected to survive	Probably not	Hospital
		Definitely not	Other (please specify)

ii). (please describe the second most significant clinical management issue)

Area of:	Which:	Was the event preventable?	Associated with?
Consideration	Made no difference to outcome	Definitely	Audited Surgical team
Concern	May have contributed to death	Probably	Another Clinical team
Adverse event	Caused death of patient who would otherwise be expected to survive	Probably not	Hospital
		Definitely not	Other (please specify)

iii). (please describe the <u>third most</u> significant clinical management issue)

Area of:	Which:	Was the event preventable?	Associated with?
Consideration	Made no difference to outcome	Definitely	Audited Surgical team
Concern	May have contributed to death	Probably	Another Clinical team
Adverse event	Caused death of patient who would otherwise be expected to survive	Probably not	Hospital
		Definitely not	Other (please specify)

List other events

25

In retrospect, would you have done anything differently? If YES, please specify

No

Yes

26	Was trauma involved?	Yes	(continue)	No	Unknown
