Note: If areas for consideration, areas of concern, or adverse events have been identified, please list below in order of significance.

Second-line Assessment Form

Definitions: An *area for consideration* is where the clinician believes areas of care COULD have been IMPROVED or DIFFERENT, but recognises that it may be an area of debate.

An *area of concern* is where the clinician believes that areas of care SHOULD have been better.

An *adverse event* is an unintended injury caused by medical management rather than by disease process, which is sufficiently serious to lead to prolonged hospitalisation or to temporary or permanent impairment or disability of the patient at the time of discharge, or which contributes to or causes death.

9a Were there any *Areas for Consideration, Areas of Concern or Adverse Events* in the management of this patient? Yes No

9b (please describe the most significant event)

Guidelines for Second-line Assessment

Introduction

The Audit has two stages of peer-review assessment:

- 1) First-line Assessment (FLA)
- 2) Second-line Assessment (SLA)

Stage 1: FLA

- A FLA is conducted for all surgical cases.

Stage 2: SLA

- A SLA is conducted for select surgical cases needing further case note review.

How to carry out a SLA:

- Review the Surgical Case Form, medical records, and FLA comments
- Complete the SLA form
- Prepare a 1-2 page report (see enclosed example)

Structure your report with:

- > a succinct one-line title
- > a summary section
- > a comments section

Include in your report:

- > a short history and factual account of clinical events
(note: do not include identifying information; names, dates, locations)
- > constructive comments on what could have been done differently
- > any Areas for Consideration, Areas of Concern, or Adverse Events
- > suggestions for changes in practice

Consider in your report:

- > Does the case adhere to a reasonable care pathway?
And if not, how does it deviate and was it justifiable?
- Return ALL documents to the Audit office (see Checklist below)

Checklist

Return by courier (phone the Audit office) the items below:

- 1) Surgical Case Form
- 2) Second-line Assessment Form
- 3) 1-2 page report
- 4) Medical records
