Additional Comments:

- Implement SLA process in the FI, if possible tab medical record sections.
- I learnt a number of useful and valuable pieces of information.
- I think the new FI format is great. Mind you, I never had an issue with the original one.
- I think a lot of queries can be sorted easily for Fellows at such a forum.
- Keep up the good work. What you all do is of great importance and value to us all as surgeons.
