

Knowledge-based sharing in the health industry

Free Event - Friday, 16 June 2017
AHRDMA Annual Scientific Meeting
in collaboration with VASM and ARCS Australia

The Royal Australasian College of Surgeons
Level 2, Training Area,
250-290 Spring St East Melbourne

The Australasian Health and Research Data Managers' Association (AHRDMA) is hosting an Annual Scientific Meeting in collaboration with the Victorian Audit of Surgical Mortality (VASM) and Association of Regulatory and Clinical Scientists (ARCS) Australia Ltd.

Aim: To provide a forum where industry leaders in health research, mental health and healthcare can share their knowledge and expertise from running clinical trials, registries, quality assurance programs to relevant stakeholders.

CME/CPD: This educational activity has been approved in the Royal Australasian College of Surgeons' CPD Program. Fellows who participate can claim one point per hour in Maintenance of Knowledge and Skills, maximum 6 points.

Registrants: May include Quality & Safety Officers, Data Managers, Health Researchers, Clinical Trials Coordinators, Clinical Research Associates, Clinical Research Officers, Medical and surgical trainees, HMOs, Surgeons (rural and urban), Nurse Managers and Educators, Staff, Administrators, Hospital Executives and Academia.

Registrations open until 13 June 2017, please register via EventBrite: <https://www.eventbrite.com.au/e/knowledge-based-sharing-in-the-health-industry-tickets-32996919675>. Alternatively please contact the AHRDMA ASM Convenor: Jessele.vinluan@surgeons.org; Phone: (03) 9249 1129.

Please rate your satisfaction against the items listed below using the following rating scale.

Strongly disagree	Disagree	Neutral	Agree	Strongly agree
1	2	3	4	5

1. The Program		1	2	3	4	5
1.1	The program was relevant to my role and my organisation.					
1.2	The program outcomes were explained.					
1.3	The pace was adequate to meet my needs.					
1.4	The program material was useful during the program.					
2. The Environment		1	2	3	4	5
2.1	Upon arrival I was made to feel welcome.					
2.2	The setup of the room and venue was suitable.					
2.3	The facilities were clean and well presented.					
3. The Facilitator		1	2	3	4	5
3.1	The facilitators' presentations were well paced and suited to the group.					
3.2	The facilitators' encouraged participation and discussions.					
4. Seminar Presentations						
4.1	'Clinical trials in the community' was well paced and suited to the group.					
4.2	'Using data at the Women's to inform improvement' was well paced and suited to the group.					
4.3	'The value of surgical mortality audit' was well paced and suited to the group.					
4.4	'Australian Breast Device Registry' was well paced and suited to the group.					
4.5	'Surgery for the treatment of otitis media in Indigenous Australian children – running a rural and remote RCT' was well paced and suited to the group.					
4.6	'Outcome from a research study in RACS Global Health' was well paced and suited to the group.					
4.7	'Incorporating research into the RMIT Pharmaceutical Sciences placement' was well paced and suited to the group.					

Thanks for your time. Please complete and return on the day or email to vasm@surgeons.org

4.8	'A brief introduction to art psychotherapy' was well paced and suited to the group.					
4.9	'Creating a 'healthy' workforce from a mental health perspective' was well paced and suited to the group.					
4.10	'Data supporting the RACS Action Plan: Building Respect, Improving Patient Safety' was well paced and suited to the group.					
4.11	'The building respect in practice' was well paced and suited to the group.					
4.12	'Documentation considerations for investigator initiated studies' was well paced and suited to the group.					
4.13	'Research and governance in the health service' was well paced and suited to the group.					
4.14	'Clinical trial research regulation' was well paced and suited to the group.					
4.15	'Clinical ethics in the health service' was well paced and suited to the group.					
4.16	'Regulatory affairs of medical devices in the health industry' was well paced and suited to the group.					
5.	Program Results	1	2	3	4	5
5.1	I have gained valuable knowledge and skills from this program.					
5.2	I can apply the skills and knowledge from this program in my role.
