1. PURPOSE AND SCOPE

This policy governs the awarding of the Paul Mackay Bolton Scholarship for Cancer Research. It covers the application and selection criteria as well as the duration, value, frequency and conditions of the Scholarship.

2. KEYWORDS

Scholarship, Fellows, Paul, Mackay, Bolton, Cancer, Research

3. BODY OF POLICY

3.1. Background

The Paul Mackay Bolton Scholarship for Cancer Research was established in 1979 by the late Harry Bolton in memory of his son, Professor Paul Bolton, who died at the age of 39 in 1978. In 2004 the College accepted the funds from the Paul Mackay Bolton Foundation on the basis that the funds would be used to perpetuate and administer this scholarship. The scholarship is to fund researchers who wish to take time away from clinical positions to undertake a full-time research project under the supervision of an experienced investigator in the prevention, causes, effects, treatment and/or care of cancer. Young researchers, who are relatively early in their careers and show promise, will be given preference over more senior established researchers. Preference will also be given to projects which are likely to have clinical relevance within a relatively short period of time.

3.2. Eligibility Criteria

Applications for the Scholarship are open to Fellows and surgical Trainees undertaking or intending to undertake research with a focus on the prevention, causes, effects, treatment and/or care of cancer. Preference will be given to applicants currently working in either Queensland or Tasmania. Applicants enrolled in, or intending to enrol in a higher degree and to young researchers early in their careers will also be looked upon favourably.

Applicants to surgical training are also eligible to apply for a scholarship in anticipation of their acceptance into the SET Program. They must be accepted into the SET Program by 1 August in the year prior to the commencement of the scholarship in order to take up the award.

All scholarships, fellowships and grants are conditional upon the applicant being a permanent resident or citizen of Australia or New Zealand, or an international medical graduate accepted into the College as a Trainee.

Applicants are eligible for a maximum of four years of RACS research scholarship funding. This can be made up of multiple College research scholarships and does not have to be taken consecutively.

3.3. Selection Criteria

The scholarship recipient will be chosen on the basis of his/her written application, Curriculum Vitae, supporting references and subsequent interview, if applicable.
Research scholarship applicants will be short-listed for interview based upon the candidate’s academic record, postgraduate training, research experience, publication history, the experience of the supervisor and reputation of the institution where the research is to be undertaken. These criteria will be assessed from information provided in the application, supporting references and accompanying Curriculum Vitae.

Short-listed applicants will be interviewed by a panel comprised of the Chair of the Board of Surgical Research and two other Board members. Assessment will be based upon the candidate’s understanding of the research project as evidenced by their explanation of the project and ability to address questions from the panel. The candidate will also be assessed on their initiative in attempting to source other funding.

3.4. Value of the Scholarship
Prospective applicants should refer to the College website at www.surgeons.org for information on the current value of the scholarship.

3.5. Duration of the Scholarship
Scholarships can be for up to two years in duration. Continuation each year is dependent upon satisfactory progress.

3.6. Frequency of the Scholarship
The scholarship is to be awarded annually, subject to the income available for the Scholarship being sufficient and providing there is a worthy applicant.

3.7. Conditions of the Scholarship

3.7.1. Research Program
The following conditions are based on information supplied at the point of application on which scholars’ applications were assessed and approved. Any changes from those originally approved by the College will require the College’s prior consent. To obtain this consent scholars are required to complete an amendment form available from the College.

a) Scholars may be enrolled in the higher degree as approved by the College for the duration of their award.

b) Scholars must undertake the research study as approved by the College for the award.

c) The completion of Referee Form Two, Section A of the Application Form by the proposed supervisor is considered certification that he/she is willing to accept the role of supervisor of the named research study.

d) Scholars must undertake the research study at an approved institute in Queensland or Tasmania.

3.7.2. Financial Arrangements
In Australia and New Zealand scholars may engage in professional work for additional remuneration for up to an average of 20% of each working week, provided that:
a) The work carried out under this entitlement is related to the broad area of his/her research activities;

b) The additional work is undertaken with the permission of the scholar’s supervisor and employing institution. Clinical sessional work, teaching and consulting are all categories of work for which permission could be sought;

c) In regard to 3.7.2 a)-b) above the scholar must refer to his/her financial or taxation advisor to ascertain the taxability of the stipend. General information about whether scholarships/fellowships are exempt from income tax is available on the College website. Please go to www.surgeons.org/scholarships/ and proceed to the FAQ section.

d) The scholarship will be paid to an Administering Institution on behalf of the scholar. Payment of the annual value of the award will be made in one instalment prior to 1 March in the given year. The control of the expenditure will be governed by the normal policies and procedures of the Administering Institution.

e) Award funds will only be paid on receipt of a valid tax invoice provided by the Administering Institution. Payment will only be made if the requirements outlined in points 3.7.4, 3.7.5 and 3.7.13 of these conditions are satisfied.

f) Where applicable, scholars are required to procure 25% of the value of their award from their research department (of both stipend and departmental maintenance). This condition will be waived if the scholar receives additional research funding to the value of, or greater than, 25% of the value of their award. (Additional funding would have to include a salary component to offset the research department’s responsibility for paying 25% of the scholar’s stipend).

3.7.3. Additional Scholarships/Fellowships/Awards

a) A College scholar may hold additional awards simultaneously with the College award being adjusted to cover the short fall between the College award and the additional award.

b) A scholar must notify the College immediately on receipt of an award other than the College award.

c) Scholars may not hold two College awards simultaneously.

d) In the event that an additional award is received, any overpayment of the eligible College award, given the adjustment, will be reimbursed by the scholar.

3.7.4. Reporting

a) The payment of the award is conditional upon the recipient providing two reports in the requested format to the College on research undertaken. This first will be requested in June for
submission by a specified date in July and the second report of publishable quality will be requested during December for submission by a specified date in January. If the above mentioned reports are not received the recipient will be ineligible for any further financial assistance from the College and may be required, at the discretion of the College, to refund the award. A copy of the report will be forwarded to Dr Michael Bolton.

b) Scholars should aim to publish the results of their research, whenever possible, in the ANZ Journal of Surgery. As a minimum, scholars are required to at least present a review article to the Journal.

c) Scholars are required to present their research for at the annual meeting of the Surgical Research Society of Australasia, at least once, during the scholarship period or within 12 months after the end of the scholarship period.

d) Scholars must prepare and publish an article in Surgical News on the completion of their award.

e) Scholars are required to complete two Scholarship Evaluation Surveys. The first will be requested upon completion of the award. The second will be requested five years after completion of the award.

3.7.5. Ethics Approval

The College must receive documentary evidence where applicable of ethical approval from the Ethics Committee of the Institution concerned to approve that the project conforms to the general principles set out in the NH&MRC “Statement on Human Experimentation” and/or the “Australian Code of Practice for the Care and Use of Animals for Scientific Purposes”.

3.7.6. Timing of Award

The commencement date for awards is 1 February each year.

3.7.7. Part Time Research

This award is available on a part-time basis. Part-time is defined as half the usual research hours worked by a research scholar Part–time scholarships are restricted to scholarship recipients wishing to undertake research only. Scholarships will not be offered on this basis for scholars to concurrently undertake research and clinical loads. Refer to the Part-time Research Scholarships policy for further details.

3.7.8. Renewal of the Scholarship

Awards are for up to two years. Renewal for the second year is subject to satisfactory progress as determined by the Board of Surgical Research. Scholars who seek support beyond one year are encouraged to apply for similar scholarships awarded by external bodies.
The College will only finance the first three years of a PhD. Therefore, if a scholar is enrolled in a PhD and has completed a portion of his/her PhD prior to receiving this award, they may be funded for the remaining duration of their three year PhD up to a maximum of two years.

### 3.7.9. Acknowledgements

The Scholarship is to be acknowledged in any relevant correspondence, public announcement, advertising, publication or other material relating to the award.

### 3.7.10. Publications and Patents

The College must be notified of any publications as soon as practicable after acceptance by the journal, or patents arising from the award together with the results of any research that is to be commercially developed.

### 3.7.11. Privacy

The College takes reasonable steps to protect the information it holds from misuse or loss and from unauthorized access, modification or disclosure. The scholar has the right to access his or her personal information and to have it corrected if inaccurate, incomplete or out of date.

### 3.7.12. Termination of the Scholarship

The College may, at its discretion, for what is considered grave cause, suspend the tenure of an award for such time as is thought fit, or deprive a scholar of his/her Award. From the date of either of these decisions, the entitlement to stipend and other allowances shall cease.

### 3.7.13. Acceptance of Offer

The scholar, their Head of Department and a representative of the Administering Institution must sign the Acceptance Form as acknowledgement of the above conditions and approved research and return it to the College prior to commencement of the award.

### 3.8. Access to policy

This policy may be accessed by the general public, College and staff.

### 3.9. Communication

Scholarship recipients will be notified of the policy or any changes to the policy that impact them by email. Other stakeholders are encouraged to check the College website on a regular basis to keep up to date with policy changes.

### 3.10. Administering Committee

The Scholarship is administered by the Board of Surgical Research.
